Well I'm back from the Namm show and I had my fill of In N Out burger and wow what a time!!! I connected with old friends and made some new ones!!!!

For the Ovation fans they have a new Glen Campbell guitar with a torrified top in the lineup. The guitar sounds really good and was a real surprise!!

There is also the SX series which is totally new. These guitars have new electronics and a mahogany top and neck along with a new headstock. The price point on these guitars are really low for a USA built in Ct made instrument.

Ovation is now taking custom orders  
If you want your dream guitar priced out.  
let me know .....
